The 55LQ3 DC/DC Power Converter

The 55LQ3 is a DC/DC Converter designed for rugged, military 3U systems. This conduction cooled unit provides 100 Watts of output power over its operating temperature range of -55°C to +85°C. The input is compliant with MIL-STD-704, and has a fully integrated EMI filter compliant with MIL-STD-461E; CE102.

The 5330A Programmable Synchro/Resolver Simulator

The 5330A represents a major step forward by using digital technology to produce high accuracy Synchro and Resolver outputs. Improved flexibility is provided by two fully independent outputs that can be used to simultaneously simulate two separate Synchro or Resolver signals, or combined to operate as two-speed outputs.
